## ABOUT THE STATE.

## Items of Interest Gleaned From Our Exchanges.

E. A. Gibbs of Stowe recently cut a basswood tree on his farm which had five twelve-foot logs in it, which measured in the log 2,185 feet. He has sawed from the butt log 650 feet of sound marketable lumber.

Sheriff H. H. Peck of Windsor county has been recently presented with a solid silver official badge bearing the inscription "Henry H. Peck, Sheriff of Windsor county, 1905." On behalf of the donors ex-Sheriff Romaine A. Spafford made the presentation speech in the sheriff's office at Woodstock. Sheriff Peck feelingly responded, thanking the deputy sheriffs of the county for the kindly gift.

Sergt. R. S. Kimball of Co. B of St. Albans presented the company with a solid gold marksmen's badge to be worn by the private making the highest score at the annual trophy competition shoot. In case no competition is held the badge is to be awarded to the private who, in the opinion of the commanding officer, is the best marksman in the company. The badge will be worn this year by private B. A. Mears, who in the trophy competition at Fort Ethan Allen in September made a score of 104, which was the highest score made during the competition.

A sight seldom if ever before seen in that vicinity attracted the attention of passers-by at the farm of A. G. Wright in Watsum yesterday. It was butchering day and he had killed 16 spring pigs that weighed nearly 200 pounds each. All of them were hung on one pole, making a string some 30 feet or more in length. The work was all completed in five and one-half hours by only four men, Frank Tucker being the butcher in chief. Mr. Wright has sold the lot to parties in Burlington and they will be shipped tomorrow. Mr. Wright is quite a hog fancier, having kept to winter nine brood sows and a thoroughbred Berkshire stock hog.

## PROBABLY ADJUSTED.

Differences in Overall Factory at Brattleboro at End.

Brattleboro, Jan. 14.—Unless some unlooked for development appears, the differences between the Hooker, Corser & Mitchell Overall Co. and the National Garment Workers' Union will be amicably adjusted; in fact the overall company and the local branch of the union feel that the incident already is practically closed.

A schedule of wages which is somewhat less than the schedule submitted recently by a walking delegate has been signed by the overall company and it was forwarded to the headquarters of the union in New York for approval, after which it will be signed by the local union.

The new schedule is entirely satisfactory to the company's 200 employees. At a recent conference between members of the company and officers of the union in New York the reduced schedule was presented to the company, but they held off, pending the adjustment of some minor details.

## BRATTLEBORO SHOWS GAIN.

A Material Increase in All Departments of Post-Office.

Brattleboro, Jan. 14.—The statement of the business of the Brattleboro post-office for 1904, just issued, shows a material increase in all departments.

The gross receipts on postal account were \$26,464, which was an increase of \$2,752 over the year 1903. The net revenue to the government was \$10,949.75. The salaries of postmaster and clerks amounted to \$8,653. In the money order department there were 18,028 transactions, amounting to \$473,703, an increase of 3,229 transactions over the previous year. In the registry division there were 3,733 pieces registered and despatched, 4,910 pieces handled in transit, and 6,505 pieces received and delivered, making a total of 15,148, an increase of 808 over the year 1903.

## ANOTHER BALESTIER LAWSUIT.

Kipling's Brother-in-Law Seeks to Recover Real Estate Commission.

Brattleboro, Jan. 14.—Beatty S. Balestier, brother-in-law of the late Beatty S. Balestier, is in a lawsuit against Anna V. May, a well known real estate agent, to recover \$400 which he claims is due him as part of the commission on a real estate deal. In November Messrs. May and Balestier sold the Houghton deer park in Halifax to H. M. Ward of New York city. Balestier was acquainted with Ward, and for that reason Mr. May enlisted his services. After the sale which, amounted to about \$10,000, the two men were unable to agree to the division of the commission, and some warm words have been exchanged relative to the matter.

## Rutland Family's Affliction.

Rutland, Jan. 14.—The family of Mr. and Mrs. Walter W. Burr of Clarendon avenue, West Rutland, has been the victim of a remarkable run of calamities during the past few weeks, and their hoodoo is still with them. Mrs. Burr has been ill for some time, and during her illness a short time ago, her youngest son, a lad of about three years, died very suddenly. Post mortem examination showed that the child burst a blood vessel in his head while at play. About the same time their son, Malcolm, five, ran a nail into his foot and tetanus set in. The saving of his life was considered a surgical miracle. Now the same boy has a severe case of pneumonia. Both lungs are affected and if he pulls through it will be a wonder.

## Rutland People Interested.

Rutland, Jan. 14.—There is much interest among temperance people all over this part of Vermont in the case against Herman Krinsky, appellant, which will come up in the Vermont supreme court at the session beginning Jan. 24, namely as it will, it is expected, decide once for all the status of Jamaica ginger as an intoxicating beverage.

## TO CURE ANY DISEASE.

## The Cause Must be Removed, Same Way With Dandruff.

Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff, and your hair must grow luxuriantly. Newbro's Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germs. It stops all irritation, keeps the scalp sweet, pure and wholesome. Remember that something claimed to be "just as good," will not do the work of genuine Herpicide. Sold by leading druggists. Send 3c. in stamps for sample to The Herpicide Co., Detroit, Mich. Rickert & Wells, Special Agents.

## REBUILDING THE CAMPANILE

American Artist Describes Restoring of Venice's Noted Structure.

F. Hopkinson Smith, the artist, who arrived at New York recently on the Lucania, had been abroad five months painting in Spain, France, Italy and England. He visited Venice, says the New York Tribune, and watched the rebuilding of the campanile.

"A quarter of the piles under the tower have already been driven," he said. "Not only is the foundation being laid, but the bricks have already been manufactured and much stone cut. The great library which was damaged by the fall of the tower is being repaired. Already the arches have been built and the stone cut."

"I made an inspection of the site of the tower and the work which is being done with the engineer. They are driving piles eight inches in circumference. Their method seems primitive, and I told the engineer that we would get a machine to work and do the pile driving in about twenty or thirty days. He explained to me that they had to meet a peculiar condition of foundation. Each pile has to be driven in a certain way, but just in the same place and driven so far in."

"The work is going slowly forward, and the campanile will soon be rebuilt. I saw some of the piles which were laid 900 years ago. The bark was still on, and, save for a slight discoloration near the outside, they are perfectly sound and in splendid condition."

## They Do Without Doctors.

It is said that the island of Pico, in the Azores, has not had a physician for nearly 400 years nor any drug stores and no contagious diseases, though there is now a population of about 3,000.

## Vapor From the Sea.

Moist vapor is constantly arising from the sea, and in the course of a year it amounts to a layer of water fourteen feet thick. This mass of moisture is borne to the clouds, and the winds drift a large part of it over the land, on which it descends in rain or snow.

## Bird Sight.

The sight of birds is extraordinary, and the simple fact that the eye of a hawk or pigeon is larger than their whole brain gives some idea of what their powers of sight must be and of how easily they can fly hundreds of miles if they have marks to guide them.

## Knife Duels in Spain.

Knife duels are very frequent among the lower classes in southern Spain. Sometimes when two men are about to fight they blow whistles to attract spectators. Their left legs are tied together at the knees, and then at a signal they begin attacking each other with long knives.

## Best Farm Land.

Undrained land is better for the growth of corn than a level surface.

## Profit in Poultry Food.

The best evidence that there is money in feeding Poultry Food is the fact that the most successful Poultrymen use it extensively. R. L. Brown, who is principal of Sherman Collegiate Institute, Moriah, N. Y., is also something of a Poultry Fancier. Read what he says about Poultry Food: "I have used 'Fage's Perfect Poultry Food' for five years with entire satisfaction and would not be without it. For growing chicks and laying fowls it is a very superior food."

## DERRICK STICKS

We carry a full assortment in stock constantly. We have just received a full cargo of 800 Oregon sticks from Puget Sound by ship, from 60 feet by 10 inches to 124 feet by 32 inches diameter. Will sell by car lots or single sticks and guarantee our sticks in every respect.

## Dissolution of Copartnership.

The copartnership heretofore existing between H. J. Smith and W. H. Smith, under the firm name and style of Smith & Brothers, is this day dissolved by mutual consent. On and after this date the business will be conducted by H. J. Smith. All bills owing by the old firm and due to them will be settled as heretofore. All new business in the name of H. J. Smith, dated at the City of Barre, in the County of Washington and State of Vermont, this 24 day of January, A. D. 1905.
